Constant Reduction of Taxation and Continuation of Road Building Features Outlined By Hon. J. D. MacLean in Laurier Club Speech; Days of McBride-Bowser Bread Lines Gone and So Are Government Deficits: Credit Here Now Best in Canada and Investment Funds Are Pouring In for Development

"We have no intention to enter upon any new lines of policy, but to carry out the policies of this vernment in the past," the Premier said. "The only change would group of men would make in any

The Premier reviewed the policies of the Liberal Government since taking office in 1916, contrasting the success which has now crowned its efforts to build up the country and restore con-idence and prosperity, with the way the defunct McBride-Bowser Govern-ment had run up the debt, and run-flown the credit of the Government and the prosperity of the Province.

"You will remember that in 1916 hen this Government was called in to take office there were bread lines in als Province and no capital was beginvested," the Premier said.

"The McBride-Bowser Government of e day had a deficit to the tune of 2,000,000 in the space of four years d our sinking funds were in arrears "The credit of this Province was ruined so much that when the Government of that day went to the bank to borrow money they received only 1886 when they handed in a promissory note for \$100.

"But you/may say that the war was on then. But when New Brunswick and other Provinces put their promissory notes into the bank at the same time they got not \$86, but \$95 for each \$100. It was not a general condition. It was purely local.

"To-day when we take our promis-ory note to the bank we get \$98 for it uur credit in British Columbia to-day i the best in Canada.

Those of you who were in busines professional life know conditions of at time. It was a very difficult sit

KEEP WITHIN INCOME "The first thing we decided was that we must balance our budget. From the first day we came into office we made our current expenditure and revenue balance. The next thing was to keep up our sinking funds, which were over \$600,000 in arrears. The next thing was to induce a flow of capital into the Province. Next was to encourage agriculture, as the basis of all prosperity has been agriculture.

from we went to try to improve al conditions. I don't want to go harrowing details, but I think you agree with me that there were cer-conditions existing that required

CONSTANT TAXATION REDUCTION

CONSTANT TAXATION REDUCTION
"In 1920 we put in another plank in cur policy, that there should be a constant reduction in taxation so that there would be a steady flow of capital into this Province.

"If we had not reduced taxation in British Columbia, the people of British Columbia, the people of British Columbia would be paying \$2,500,000 more to-day in taxes than they are.

"Sufficient to answer the assertion that capital is afraid to invest in this Province, is the fact that there has never been a time in the history of this Province when capital was investing in this Province as it is at the present time.

"Some have criticized our labor legislation. But look over history and you will see that the most prosperous country is where labor is satisfied.

Pittsburgh, Oct. 5-A three-run rally in the third inning when the Pirates made a general mess of things allowed the New York Yankees to winthe first game of the 1927 world's series. The Pirates whittled away at this commanding lead but fell one short and the score ended 5-4. Forty-five thousand fans saw the game.

Ray Kremer started on the mound for the Pirates and Waite Hoyt opened for the Yankees, but neither stayed tha limit. Miljus, who relieved Kremer, and Moore, who replaced Hoyt, were invincible and pitched the best ball of

the game.

Piay was very erratic in several innings. Pittaburgh outhit the Yankees, getting nine asfeties to New York's six. The fielding of the Pirates, however, was sad and cost them the game. The Yankees were steadier in the field.

No homeruns were made. Gehrig came the closest, getting a triple, Paul Waner outdid his rival, Babe Ruth, in the question of hitting by the matter of one base. Each got three hits, but Paul made one of his good for a double.

PRIMED THE FANS PRIMED THE FANS

The opening inning primed the fans for an exciting ball game. The batters clouted the ball far over the infield and the outfielders had to do some tall hustling to pull in some of the flies and prevent them from going as hits. The first ball pitched in the game was hit by Combs, lead-off man of the Yankees, almost to the scoreboard, and Barnhart had to sprint hard to capture it. Ruth pasted the ball for a single and then his homerum rival Gehrig, rattled the ball far for a triple which sent home a run.

ADMIRABLY QUALIFIED FOR OFFICE

"While British Columbia mourns the loss of the late Premier, the Hon. John of Oliver, the Province is indeed forunate in having a statesman of the outstanding experience possessed by the Hon. J. D. MacLean to succeed to that high and important office. His political life has followed so truly, after our late chieftain that he proved to be the personal choice for leadership of the late Hon. John Oliver.

"The business ability displayed and the able nanner in which Dr. MacLean administered the different departments which have been chirustea to his care during his political career, admirably qualify him for that high and important office, namely, the First Minister of our Province.

"Dr. MacLean is the soul of political integrity: a gentleman easy of approach; genial but not weak; a gifted public speaker. With his wide and axtensive knowledge of the wants of our Province, he will prove a strong and capable leader, and under his guidance I am sure British Columbia will go forward and enjoy a new and additional period of prosperity and development.

"The Laurier Club of Victoria is in-

additional period of prosperity and development.

"The Laurier Club of Victoria is indeed proud of having the Hon. J. D. MacLean as its guest of honor this evening. It is not necessary for me to introduce the Premier as we are all personally acquainted with him, but again let me assure you, distinguished sir, that we welcome you with all our hearts and hope you will long be spared to administer the affairs of the Province."

Prosperity, Confidence, Credit In B.C. Regained, Premier Says

In opening the Fremier paid a tribute to his predecessor the Hon. John Oliver. He said that when motives of equity, justice and honor inspire a man's public and private life his generation must be the better for his having lived among them, and he had no doubt that the example of the late Fermier's career would continue to exercise an influence on public affairs in this Province for many years to come. His passing had placed great responsibility on his former colleagues and more particularly upon himself. This responsibility implied that they should impress upon their friends the services the Oliver Government had rendered the Province during the justices and in the province during the justices the Oliver Government had rendered the Province during the justices and in the province during the justices and in the province during the justices and its payroli had increased from \$78,000,000 to \$175,000.

Then it was stated that the Government had lost the confidence of the electors. There was nothing in the record of by-elections held since the general election of 1924 to bear this out. In North Okanagan they had lost a seat in which the Conservative vote had been predominant, but divided in the general election, and in a subsequent by-election there had been no change in standing. On the other hand they had captured Grand Forks-Greenwood from their opponents and had Stained Nelson and New Westminster by largely increased majorities. This had been particularly marked in the recent election in New Westminster. MORALE OF PARTY HIGH

balance the budgets, to make up the
shortage in sinking funds, to secure
an inflow of capital, to increase aricultural production, to improve social
and labor conditions, to increase the
development of our natural products
and to reduce taxation. Well, how
had they succeeded? Last year there
was a favorable balance of the budget
to over \$100,000, and the deficient
sinking funds had been advanced to
\$14,500,000 or \$1,000,000 in excess of

LABOR CONDITIONS IMPROVED

In the meantime what had been done to improve the conditions of Labor? The principle of the eighthour working day had been given general adoption, a Department of Labor had been established, sanitary conditions had been established and workers' conditions had been wastly improved by the Government's amendments to the Factory Acts. There had been an advancement in social conditions in other ways. He mentioned the Mothers' Pensions Act, which was to-day benefiting 1,200 mothers and 3,400 children at an annual cost of \$600,000. They were the first Province to adopt Old Age Pensions which were just now coming into force. As incidental to all his the Government had taken over the Tranquille Sanatorium, had established a home for inguished the second of the conditions in the boys' and girls' industrial schools.

They had also restored the credit of the Province. From a time when a R.C. Government promissory note for \$100 was only worth \$88 they had last week got the best price for provincial bonds that had been obtained intorty years.

TAXES HERE LOWER B. C. Nicholas, in moving the vote of thanks to the Premier, declared that in no quarter of the Province is there any feeling of antagonism towards Dr. MacLean, because of his courtesy, sincerity and fidelity. He said that when Dr. MacLean speaks he does not use words lightly.

TAXES HERE LOWER

At the same time they were reducing taxation, and he did not think they compared unfavorably with neighboring states or provinces where conditions were similar. For example in British Columbia Ford sedan license cost \$20 as against \$28 in the state of Washington, and licenses for more expensive cars could be bought for \$58 here as against \$156 there. Nor was the tax on farm lands less favorable by comparison. A 320-acre farm with \$25 acres cultivated would pay a tax of \$242 in Washington as against only \$94.50 in British Columbia.

quent by-election there had been no change in standing. On the other hand they had captured Grand Forks-Greenwood from their opponents and the standing of the standing of the standing to standing the standing of the standing for millions annually. If the standing the standing for standing for millions annually. If the standing the standing for standing fo of the electors than at any time during the past four or five years."

CREDIT STANDING NOW RESTORED

What was the condition of the Province when the Government took office late in the year 1916? From 1913 and 1914 onward industrial conditions had been bad, the boom of 1909-13 had collapsed, capital had cessed to invest, deflicits were common and had run to over \$12,000,000 in four years, sinking funds were in arrears by \$648,000 and railway bonds had been guaranteed to the extent of \$67,000,000. The result of all this was that the credit of the Province had been ruined, and \$100 promissory notes of the Government of British Columbia brought only \$86 to the Province, while in the other provinces of Canada such notes brought their governments \$95 to \$96.

Moreover the Government was giving-the municipalities \$2,500,000 more an-nually than they received in 1916, and the shortage in municipal sinking funds had been reduced from \$5,000,000 to \$2,000,000 and their tax arrears from \$8,000,000 to \$4,000,000. The majority of the hospital boards had deficits in 1916, to-day few of them had.

POLICY PLANKS

Outlining the future policies the Government had in view the Premier said they were:

To continue present policies but to avoid mistakes that had been made in To still further reduce taxation.
To continue their programme of building as fast as funds will part

To still further reduce taxation.
To continue their programme of road building as fast as funds will permit.
To improve the financial relations between Ottawa and British Columbia.
To utilize the waste products of industry.
He added that they already had a knowledge of our lands, timber and water powers.

Dr. Tolmie claimed to represent the farmers and to have been in agricultural life for forty-one years. As a matter of fact he had practised as a veterinary surgeon from 1891 to 1890, had been in the civil service from 1898 to 1917, and had been an M.P. from 1917 to 1927.

TORIES SILENT ON P.G.E. Their opponents had no policy. The Kamkoops convention had ignored the P.G.E. question, and Dr. Tolmie had recently said he would go over the line and then announce his policy. They were going to spend millions of dollars annually in new enterprises, and going to reduce taxation at the same time. They should advertise themselves as advisers to ministers of finance in all parts of the world, and show them how to reduce taxes, and at the same time make these huge expenditures. Such suggestions were farcical. **DECIDED BY JUDGE**

WHAT FREIGHT REDUCTION

MEANS

Dealing briefly with the freight rates campaign the Fremier pointed out that they had succeeded in having the export rate on wheat reduced from thirty-one cents to twenty cents per hundred pounds. At the same time the movement in grain through our ports had increased from 19,000,000 bushels in 1923 to 40,000,000 last year, and in view of the big crop on the prairies this season it was estimated that 75,000,000 would pass through before the end of 1928. There had been a saving to shippers of grain alone of 815,000,000 and probably another 815,000,000 on on the roundities from the reductions secured. The cost of the campaign for reduction of freight rates had been criticised and yet the total to the Province from 1921 to 1928 did not exceed \$160,000, and that involved the employment of fate experts, and solicitors besides counsel with cost of traveling expenses and transcripts. He considered the results justified the expenditure.

In conclusion the Premier said the party was led by honorable men, and among its supporters in the House were many who had made a success of their own business. Their policies had led to development and advancement. Labor was reasonably satisfied and capital unafraid, and they had given to the Province a programme of social legislation which placed it in the very forefront in all the world in that TaxAATION REDUCTION Vancouver, Oct. 5.—On a retrial in the Supreme Court here, Mr. Justice Morrison has dismissed an action by the Attorney-General of British Columbia and the Minister of Lands to recover \$1,805 from Colonel Charles Flick of Mayne Island.

A STATESMANLIKE SPEECH

THOSE WHO LISTENED TO THE statesmanlike speech Premier MacLean delivered at the banquet tendered to him at the Dominion Hotel last night must have left the hall with a full appreciation of the manner in which the public affairs of British Columbia have been managed during the last ten years and the benefits which have accrued to the Province from the operation of progressive legislation.

Dr. MacLean's narrative was extremely interesting apart altogether from such political significance as it may have had for those who support the Government. It was a story of solid achievement with its beginnings in the trying years of the war, when the business of government in nearly every country of the world called for calm judgment, in which were set out clearly and forcefully the methods adopted to rehabilitate the credit of the Province and the policies necessary to revive industrial activity. The outstanding success of those policies is reflected partly in the fact that British Columbia's latest loan was negotiated at a lower rate of interest than any which has been paid by the Province since 1889.

Of special interest and importance was the Premier's reminder that British Columbia has progressed to such an extent industrially that it now ranks third among the provinces of the Dominion. He showed how since 1916 agricultural production has increased 121 per cent.; lumbering 138.7 per cent.; waterborne export of lumber in the five-year period of 1922-1926 as against 1912-1916, 984 per cent.; log scale in the same comparative period 111 per cent.; value of forest production 159 per cent.; value of pulp production 368 per cent.; mining production in the ten-year period increased 58.9 per cent.; fishing 88.95 per cent.; the total production of the basic industries of the Province in 1926 revealing an increase over that of 1916 of no less than \$126,180,-263, or 101.3 per cent.

Dr. MacLean summed up British Columbia's industrial growth by showing that in 1919 there were 5,301 industrial firms compared with 6,524 in 1923 and 8,058 by the end of June of the present year. Perhaps even more illuminating was his statement that the industrial payroll of the Province has increased from \$78,000,000 in 1917 to \$175,000,000 at the end of last year. It was natural the Premier should take the opportunity of suggesting that a showing of this kind indicated that, far from being afraid to come to British Columbia, as Conservatives persistently declare, capital long had realized its opportunities in this Province, had come here and had reaped manifold benefits, the actual figures bearing witness to the truth of this statement.

The Premier likewise has reason to be gratified that the working out of his financial policies has enabled him to reduce taxation and at the same time make ample provision to liquidate the public debt through the creation of a sinking fund already ounting to a larger sum than that set aside by the three prairie provinces combined. His announcement to the gathering that he proposes still further to lighten the load of taxation was cheerful news. In fact Dr. MacLean's speech was a businesslike review of profurnishing a sharp contrast to Dr. Tol dress to the Conservatives of Saanich, which was composed of a collection of vague generalities.

MEXICO

MEXICANS SEEM TO HAVE A DEbullets instead of ballots. There is nothing new or novel about the military revolution which has caused President Calles to invoke the policy of suppression which Diaz usually found fairly successful during his long and dictatorial career. Less than twenty-four hours after the revolt had broken out several of the ardent spirits who started the trouble, including one of the presidential candidates, were lined up against the wall and shot. Latest advices indicate that governmental authority has been fully restored.

The cause of the revolt is not yet apparent. It may be local in its origin or it is quite within the realm of possibility that outside capitalistic influences have had a finger in the pie. Oil interests, previously able to exploit pretty much at will, took anything but kindly to the legislation which brought their concessions under the jurisdiction of the laws of Mexico. For the regime of President Calles has been notable for an intense development of the national spirit. A number of his official acts have been in the nature of an intimation to the foreigner that Mexico for the Mexicans is to be the republic's watchword in future. So it is easy to understand that certain outside investors, having waxed rich under the more beneficent policies of days gone by, would give a good deal to defeat Calles and replace him with another president more amenable to reason as they see it.

CANADIANS FROM THE UKRAINE

ON A NUMBER OF OCCASIONS REcently some of our alarmists have displayed a considerable amount of uneasiness over Canada's non-British population. We have been told that some of our foreign settlements are little better than hotbeds of Communism. Little proof has been available to support such suggestions; but ample evidence exists, on the contrary, to show that most of the people who have come to Canada from Continental European countries are happy and prosperous and rapidly becoming Canadianized.

Our Ukranian population often has been singled out as being the least assimilable race. For this reason a letter recently sent to the national secretary of the Association of Canadian Clubs, and read by him at the annual convention in Ottawa last month, by Dr. Ambrose Rodkevich, president of a Canadian Club in Calgary which is composed entirely of Ukranian-Canadians, is worth reproducing in part. The document sets forth the view of the new Canadian and emphasizes the desire of the Ukranians to be accepted as and to become Canadians. We quote:

"Although the Ukranians of Calgary are the first that have formed a Canadian Club, they are not the only ones from among Ukranians of Canada who love Canada and are proud citizens of Canada. . . The Ukranians have proved their loyaitly by sending hundreds of their sons to the Great War, who fought side by side with the best sons of Canada and shed their blood under the glorious banner of Canada. . During the fourteen years I have been here I have had opportunity to observe methods applied, even by the Government, in the endeavor to make of Ukranians good Canadian citizens, and I must say, with much regret, that I have found all of those methods too one-sided. There does not exist any real love which could be won by force. It is a historical mistake to think that to-day's immigrants, who are a part of a cultural nation, with a more or less glorious history of their own, with their wide itterature, their customs, some of them most sacred to the people, could be made good citizens of Canada of to-morrow, by forcing them morally to forget and abandon everything; their native country, their language, their songs, their poets. Some of us forget that a real Canadian, 'the Canadian,' is not born yet."

From this point Dr. Rodkevich proceeds to note the various racial origins of those who make up the Canadian people, pointing out that their racial feelings "are still strongly accentuated in every line of the inner life and development of Canada." He then

"In my opinion, everyone to-day who thinks that he or his race is the only real Canadian, 'the Canadian,' is greatly mistaken. His race, his language, his customs may be dominant and may remain so forever, but this predominance does not make him 'the Canadian.' The real Canadian, 'the Canadian, will not belong to any race or nation exclusively; he will be the product of all races by which Canada is or will be peopled. He will unite in his person the useful, great and noble characteristics of those different races; he will absorb them; he will be their personification; his history will no longer be overshadowed by the history of different countries wherefrom his ancestors originwill absorb them; he will be their personitation. Thistory will no longer be overshadowed by the history of different countries wherefrom his ancestors originated—his history will be 'the history,' of awakening, struggling, suffering, conquering, triumphant, glorious Canada. His ancestors will be for him, not Anglo-Saxon, French, Ukranian, etc.; he will look back at them and admire them and honor them and love them as sons and daughters of his sole beloved Mother Canada, as his fathers and mothers, whose product is 'the Canadian.'"

With an appeal to the Association of Canadian Clubs to "let not one place in Canada be without a Canadian Club," Dr. Rodkevich concludes with this moving exhortation:

"Get together, know better each other, you who originate from different races, give to the others and receive from them what good and noble you have, turn it into your blood and flesh, let your soul be resplendent with those priceless jewels; bear always in your mind that Canada expects you to contribute your utmost to the forming of the future 'Canadian.' Then you will be the real sower and your seed will be the 'sperm' which in due' time will produce the noblest plant, which grows only in Canada—"THE CANADIAN."

Led by a man of this type-and other races besides the Ukranians have equally able and inspiring leaders there is very little danger of Canada's foreign population failing to measure up to the full requirements of Canadian citizenship.

Announcement that the government intends institutimmediate proceedings as and distillers, found guilty of defrauding the treasury of taxes, will be welcomed by the whole country. There is taxes, will be welcomed by the whole country. There is only one way to compel respect for the law, and that way is to apply it without fear or favor. Some of those who have been detected in tax evasion may be powerful politically and financially, and may assume that such power can protect them from punishment. They should be speedily and emphatically disillusioned. Nor need the Government have much fear regarding the consequences. Whatever it may lose in the way of support from those that it punishes it will more than make up by increased respect from the public. respect from the public.

The Misses Dorothy and Olive Gilman and Hazel Hill were hostesses at a novel kitchen and pantry shower, at the home of the Misses Gilman, Amelia Avenue, in honor of Miss Anah Jackson, a popular bride-elect of October. The reception and dining-room being prettily decorated for the occasion in a color scheme of pink and white, with bouquets of Autumn flowers and foliage, above the fire-place on the mantiepiece, was a dainty little bride and groom arranged in a bower of flowers. The evening was spent in games and dancing. About 11 o'clook Miss Jackson was invited into the kitchen to see a new clothes rack, and on inspecting it found it to contain kitchen and cupboard necessities. Miss Jackson was very much surprised, but Jackson was very much surprised, but showed her appreciation in her few words of thanks to her friends. A lovely buffet supper was served in the dining-room, Mrs. Gilman assisted at the tea urns, the happy evening ending with the singing of "For She Is a Jolly Good Fellow." RADIO SHOW WILL **CONCLUDE TO-DAY**

Upwards of 1,000 People Witnessed Exhibits Yesterday at Crystal Garden

The fourth annual radio show, sponsored by the Radio Club of Victoria, offers the newest and best in radio programme reception. Upwards of 1,000 persons witnessed the exhibition yesterday, taking a keen interest in the exhibits.

To-day is the last day of the exhibition at the Crystal Garden. Fitteen dealers and distributing houseare taking part in the exhibition.

Yesterday A. L. Gray, inspector of the Dominion Radio Telegraphs, gave an interesting demonstration in the methods used to trace down power interference. A seven tube set with a directional serial rig is used to trace the source of noises causing interference in radio reception. The service is a regular feature of the work under the direction of the Federal authorities and supported by the contributions of the \$1 license fee.

Patrons at the show were treated to a wide range of entertainment yesterday, music and other programmes from all over the continent being taken out of the air at various times during the evening.

Miss Agnew in an interesting and most comprehensive report told the gathering of the recent convention of the Associated Canadian Clubs held at Ottawa. The Governor-General and Lady Willingdon had been present at the opening session, together with the Marquis of Dufferin, who had been born at Rideau Hall during the regime of his parents, the late Marquis and Lady Dufferin.

Graham Spry, national secretary.

At the resumption of proceedings Tuesday afternoon, Mrs. W Dennis, Halifax, was elected to the chair for the session. The meeting went into committee of the whole for discussion of the work in general. The presentation by delegates of the varying aspects of activities in different parts of the country developed a wide range of discussion, the outcome of which was recognition of the necessity of the National Conveners keeping in touch with local conveners keeping in touch with local conveners and with affiliated and

local conveners and with affiliated and non-affiliated societies for a knowledge of what is going on in Canada and other countries.

A recommendation from the household economics committee proposed that the National Council of Women refer the matter of teaching domestic science in sphools to the various provincial councils for study. A second recommendation was that the "question of the employment of white women by Orientals be referred back to the committee on professions and employment of women for study and report."

The Dr. O. M. Jones Chapter LO.D.E., will hold a tag day on Saturday, October 8, in ald of its milk fund. For a number of years past this little band of women have made their chief work the distribution of milk to ill-nourished children in the city schools, and the school nurse, as well as the grateful parents, willingly testify to the beneficial results accruing to the children who receive this daily ration.

Many hundreds of gallons of milk are used yearly in the schools and its supply is a constant drain upon the Chapter's slender resources. To continue its work it makes one appeal annually to the sympathetic public, and on Saturday it hopes to meet with the use of art clubs in connection with local councils.

Miss Royce, Toronto, spoke briefly to the past.

Alice Terry enacts the part of the woman, an innocent young wife who sinks in the sea of slander the goossiping city has caused. This is the first time in some seasons that Novarro and Miss Terry have played opposite each other, and as they are one of the famous pairs of screen lovers their appearance together promises untivalled entertainment. Thrills are provided by a sensational duel. The cast is one of exceptional merit, including Roy D'Arcy, George K. Arthur, Edward Connelly. Edward Martinde and John Miljan. John M. Stahl directed.

RECORD HOUSES TO

Promising to be one of the most successful of all Norma Taimadge's motion pictures, the modern screen "Camille" is attracting enthusiastic crowds to the Capitol Theatre, where it was given its first local showing Monday night. Miss Taimadge's new picture is an innovation, in that it adapts a classic of the nineteenth century, known to millions throughout the world, to current conditions.

The character "Camille," visualized by Miss Taimadge as an ultra-fashionable siren of modern Parls, is a radical departure from her most recent roles. It marks, as well, the fulfilliment of her greatest screen ambition.

"Camille," which was produced by Joseph M. Schenck for Pirst National, also features a notable cast in support of Miss Taimadge, with Gibert Roland appearing as "Armand," the impulsive young lover. Roland is a comparative newcomer to the screen and his work Promising to be one of the most suc-

Acid Scalp

It isn't age that dulis the hair. Nor frequent washing or curling. If your hair lacks all life and lustre it may be due to a condition you can correct in twenty-four hours—Acid scalp.

Neatralize the acid secretions of the scalp, and your hair will have the lovely sheen that makes any hair so attractive. A few drops of Danderine will do this and, as its name implies, Danderine is a scientific dandruff dissolvent. Five minutes after Danderine is applied every particle of dandruff has been dissolved!

Acid scalp should be suspected if your hair is at all stiff or stringy, or won't hold a wave. Another sign—not so easily detected in one's self—is an acrid odor to the hair when it is warm, or after exercise. And for thirty-five cents at any drug store, you can get a bottle of Danderine that will keep your hair soft and sweet and "on its good behavior" for weeks!

as "Armand is regarded as a Armand of further interesting achievements in the future. Other supporting, players are Lilyan Tashman, Rose Dione, Harvey Clark, Alec Francis and Helen Jerome Eddy.

Fred Niblo directed "Camille," the screen adaptation being prepared by Fred de Gresac and the continuity by Chandler Sprague and Olga Printziau. On the stage at the Capitol Theatre this week, in addition to the regular feature picture, "Camille", there are three high-class acts of vaudeville, which include "The De Ceciletos" in a novelty comedy and dance presentation, Denham and Wallace, the "Ukelele Hounds," in a jazzy selection of popular airs, and Miss Lowie Fisher, a dainty

SEEK GOVERNMENT FISHING EFFOR

Fishermen and Canners to Ask Ottawa For Fifty Per Cent Cut in Gear

Drastic Measure Urged to Prevent Ruin of Industry

Support of the Provincial Govern ment in their efforts to secure drastic reductions in salmon fishing and canning next year will be sought by men and canners of the Mainland coast. After agreeing to ask for a fifty per cent reduction in fishing licenses during the 1928 season, fisher men and canners will come here to urge the Province to help them in this conservation scheme. While sending a delegation to Ottawa to press their plan upon the Federal Government, the fish-ing interests will seek the assistance of the provincial author s, who the selves have no control of fishing tions. AIDED CONSERVATION

Albed Conservation

As the Provincial Government has been working for the last twenty-five years for the conservation of British Columbia salmon, its support of any movement to this end, so long as it is just to the interests involved, appears assured. Representative canners and fishermen will come here soon to explain their views to the Government. In this way British Columbia is preparing now for the strongest effort ever an this way British Columbia is pre-paring now for the strongest effort ever made to save the salmon fisheries of other rivers from the utter ruin which has overcome the Fraser.

PASSES IN CHICAGO

The scheme outlined by the canners and fishermen at a meeting in Vancouver last week calls for the division of the Coast into fishing districts and a systematic reduction of the licenses issued in each district and in the gear

Star Southpaw of Yankees, Who Has Never Lost a Game in a World's Series, Will Have Injured Leg in Shape for Return to New York; Playing Field at Pittsburgh Fastest Yankees Have Ever Seen and They Suspect Pirates of Keeping It Dried Out to Upset American League Champs

NEITHER LASTED

Pittsburgh, Oct. 5.—Herb Pennock, hpaw star of the New York Yankees' pitching staff, injured during batting practice yesterday, will be able to pitch Friday's game of the world's series in New York, Dr. J. R. Spoll sald

The injury to Pennock's leg. Dr. Spoll announced, was not nearly so serious as had been first supposed. The swelling was going down rapidly and there was scagcely a mark to show where Pennock had been hit, the physician said. Pennock, who has yet to lose a world's series game, worked out at Forbes Field before the opening game the day. Spoll added.
Pennock was pitching during Yank batting practice yesterday when a line drive by Codric Durst, substitute outfielder, struck him above the knee, bursting a blood vessel.

Both may get preference over Lee Meadows, veteran moundsman, and Carmen Hill, in Manager Bush's selection.

If Ruth and Gehrig played a season on this field they would have killed some infielder. Prospects for the season will be discussed and entries called for.

be discussed and entries called for.

This morning word was received in the city that the Chicago "Big 5" basketball team, holders of the United States championship, may play in Victoris. This would be one of the greatest boosts the game ever received if the visit can be arranged. In past years when the Edmonton Grads or any other championship quintette have performed here it has done considerable towards bringing this Winter sport to the fore.

and in 1924-25 and 1925-26 the national intercollegiate championship for Notre Dame University.

The five regular players on this team have played together for the last eighteen years and have developed wonderful team play. They played together in grade school, in high school and later in college. Critics declare the quintette to be the fastest and possessed of the best teamwork and passing attack of any club ever obganized in the Middle West.

The club is making its tour for the purpose of boosting the game.

With plans made for the opening of the City Basketball League, clubs are now rounding their teams into shape. One new entry in the senior division, that will give the remaining clubs plenty to worry about, will be spon-sored by the Gordon Sword Service Station.

'Richard Granton of Granton Hall,' is the name of the new play, which is to be siven in four parts, the first part of which will be on the air to-night. This first part is called 'Lenora, the Woman of the Plains.' The parts of the play will be given on the first and third Wednesdays of each month, with the final installment on November 16. Mr. Stevenson has in the past two years written forty-two plays, and the one which will be broadcast this evening is one of his best efforts. The company giving the plays will be known as the Stevenson Dramatic Society, and will include the following artists, the Misses Helen Parkinson, Lily Rossboom, Gladys MacLehlan and Hubert Lethaby, Harold Groves, J. Miller and Res. Owen. Norval Peterson has been secured as the announcer for the Stevenson Dramatic Society, it is expected that these plays will prove one of the most popular features of CFCT.

The annual harvest concert was a decided success, and Miss Arnup, who undertook the task of organizing it, is to be warmly congratulated. The artists did their parts splendidly and thoroughly deserved the hearty encores they received. They included Miss Veima Jacklin, planoforte solos; Miss Donna White, in costume, rendering songs of long ago, in which little Jean Grey and Phyllis Goddard made charming listeners; Mr. Almond, in several choice pieces: Miss Dorothy Rough, in an inimitable presentation of "Mr. Si Perkins"; Miss Stocken, in two delightful songs; the always welcome tenor, Frank Tupman, in his excellent rendering of two pieces; the Missee Higham, in a charming sketch, entitled "The Brown Paper Parcel"; Miss Arnup, accompanied by Bert Merry, in a much appreciated solo, and the Missee Jose Farrington and Edith Dunn, with George Pry of the School of Social Dancing, in their expression of a "Chinese Pantasy and other pieces won the praise of young and old.

foresight in aiming at bigger things for the Queen City of the West.

"It takes study, hard work and unceasing application to make a success of a city, as of any other business. Let us aim at making Victoria the most successful city on the Pacific seaboard. Talk will not do it, but work will, and those who stop for a moment to think will be prepared to sink their personal ambitions and work for the personal ambitions and work for the common good. This city can be anything we desire to make it, so let us REDUCTION IN MILL RATE

REDUCTION IN MILL RATE

The Mayor referred to the steady reduction in the mill rate, which combined with a considerable reduction in assessments was one of the features of the regime of which he is the head. Credit in no unstined measure was given by His Worship to the successive councils of 1925-26 and 27 for whole-hearted co-operation in keeping down the cost of doing city business.

GETS SUPPORT GETS SUPPORT

the cost of doing city business.

GETS SUPPORT

"I do not suppose that any Mayor of Victoria ever received more hearty support than was accorded to me this year by my colleagues on the City Council. That, combined with the demonstration of awakening public confidence in the future of our city has made my work this year a pleasure to me. While I have no desire to continue in the position at the expense of any who feel they have a better right, let me make it clear that I am here because I am confident we can push Victoria to the top of the ladder, and when we get there I want to be able to say I helped."

The Mayor's announcement came at the end of successive days of delegations of representative business men, urging him to remain in office to carry on the work he initiated this year. Perhaps no chief magistrate of the city has had a heavier mailbag than Mayor Pendray, and for some weeks now personal requests that he continue at the head of the city's affairs have been pouring in. The persistence and volume of the solicitation played no small part in influencing his course, stated His Worship, coupled with a desire to see action on the industrial plan he initiated.

LAST OF REBELS IN MEXICO BEING ROUNDED UP

(Continued from page 1)

The two forces still in operation in Mexico were stated to be under the command of General Hector Ignacio Almada, who commanded the Mexico City garrison, and General Arnulfo Gomez, who was reported to have taken up a position in an ancient fortress at Perote in the State of Vera Cruz, about sixty miles from Jalapa, the state capital. IN OLD FORTRESS

General Almada's group was estimated to total less than 600 men. while that of General Gomes was thought to be somewhat smaller, although the exact numbers could not be determined. Both forces were stated to be exact numbers could not be mined. Both forces were stated closely pursued by federal troops to the Government. EXECUTIONS REPORTED

EXECUTIONS REPORTED

Mexico City, Oct. 5.—Further executions are announced in the Calles
Government's stern campaign to stamp
out the military revolt.

Following upon the news of the
execution of General Francisco Serrano, presidential candidate, and thirteen of his prominent followers, a
statement issued from the presidential
bureau tells of three more captures
and summary punishment in widelyseparated regions.

bureau tells of three more captures and summary punishment in widely-separated regions.

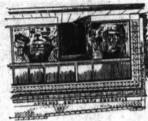

In Pachus, Hidalgo State, northeast of Mexico City, former General Arturo Laso de Lavega attempted to incite troops to rebellion and was captured and executed.

In Zacatecas City, northwest of the capital, former General Aifredo Rodriguez and Norderto A. Olivera were given the extreme penalty on similar charges. It was alleged they acted on orders from General Arnulo Gomez, who with General Serrano, was named by the Government as instigator of a nation-wide revolutionary movement. SURRENDER EXPECTED

General Alvarez, chief of President Callee's staff, claims that only two rebel military groups remain in arms in the entire country, that they are small in numbers and that with 5,000 federal soldiers pursuing them, their early surrender is expected.

He slso called attention to the fact that, out of the federal army of 70,000, only-1,500 or at most 3,000 proved disloyal when the movement started.

ANNIVERSARY SALE OF

FIFTEEN years ago we opened a small one-floor store on Pandora Avenue. To-day we have an entire building of five floors, 30x110, and an annex which we found necessary to add last year to house our upholstery shop. Only by keenest prices and exceptional service have we obtained this degree of success. We believe, however, there are some citizens not familiar with our immense display of Furniture, and it is at our anniversary period we make a special effort to further our business relations among the citizens of Victoria by giving worthwhile bargains in every department of our five floors during the entire month.

"There is too something the matter.
You look sick! Wife been underfeeding eyou. I suppose." She turned to Molly.
"Well, I've brought news for you, You know that silly Howist girl?"
"Mary Holmquist?"
"Yes. Well, I just took her to the hospital to-night." A nurse who was sitting beside the bed stood up. "She won't recognize you," said the girl in white. "She's been this way all night."

Molly laid her hand on Mary Holm-quist's forehead. The dark eyes — astonishingly dark they looked, in con-trast with her fair hair—closed and opened, but there was no sign of rec-

Wall Street TO-DAY

Last Minute News on Stocks and Financial Affairs

(By B.C. Bond Cohp. Direct Wire) tion of the Wall Street Journal says: Tuesday's late decline on a turnover in excess of 3,000,000 shares left the ernity with a bad case of nerves. This condition was accentuated by the rise in loan figures to record levels at the end of September and the drop of 1.745 cars from the previous week in freight loadings for the period ended September 24. This failure of railroad traffic to maintain an upward trend was pointed out as an other cause. On this theory the bear crowd launched

another vigorous drive on the chief trading stocks in the early dealings.

The general list was forced to absorb considerable selling of necessitous character. This pressure forced steel, General Motors and other pivotal issues to new low ground on the recution.

This tendency to take the side lines was stimulated by the mixed tenor of reports on the steel industry.

Silverado Breaks Fast as Bears Sell

On buyin gled by James Stewart, Silverado climbed on the Victoria stock exchange to sell at a new high of 100.

verado climbed on the vectors verado climbed of vectors and in the price here and in Winnipeg a few years ago.

When the stock hit the 100 mark today there were heavy selling orders. Even bond houses appeared with orders from clients who have been holding the stock for some time. In addition to these sellers of actual stock, shortsellers of Silverado appeared and offered the stock in big blocks. The buyers retreated and the stock broke fast through 95 then down through 85. It closed at 50-85.

The drop in Silverado boliows the setback in Porter Idaho which sold again if down to 24½ in Vancouver.

George Copper closed at a new high of 173-179. All the trading in the stock in Victoria to-day was at 175. This stock has tightened right up and held the whole gain it made a few days ago when it rose forty-five points in one session. All offerings have been ipicked up and the stock has gone into strong hands.

strong hands.

Standard Silver Lead broke to sell at a new low of 12 in Vancouver to-day. S L. and L. was an active trader in Vancouver to-day after a quiet spell of some weeks. There is encouraging news from Harry Thomey, who is in charge of the development of the pro-

(By Branson, Brown & Co. Ltd.)
Winnipeg, Oct. 5.—Wheat—The local wheat market opened about 1 cent up this morning, the October touching \$1.38 with a few belated shorts coyering on the continued unfavorable weather over Western Canada, while offerings were scare. Chicago refused to follow our bulge and there was no export business of consequence which induced longs to liquidate and take profits, and the market sagged off under a poor demand, October getting up against the daily bids and some buying against these brought about small upturns, but there was no real strength shown.

At times there was a little unwinding of spreads, selling October against purchases of December and May and the deferred months were relatively stronger than the October most of the day. Rains were general in Saskatchewan yesterday and it was still raining early this morning. Southern Alberta had little showers or snow flurries but the northern half of the province was dry and there was no precipitation in Alberta this morning. The forecast for the three provinces was for becoming colder with scattered showers or snow flurries.

Country offerings of wheat Tuesday (By Branson, Brown & Company)
New York, Oct. 5—Stocks were in active demand after early selling had run its course, but the rallies as a result of this merely attracted a fresh selling movement, and in the late dealings many of the day's low levels were recorded. Active covering by shorts who were working on the selling side yesterday promoted a rally in the leading rails, coppers and the premier motor issues.

However, steel was freely offered today and its action helped to unsettle the general market. Houston All, American Can and Free Port were among the prominent specialties that were propelled higher and the advances were well maintained.

The early selling that made its appearance was promoted by the large increase in the monthly loan statement reported by the New York Stock Exchange. Money was renewed at 4½ per cent and this also brought out some selling. The iron age reported no defined indications of improvement in the general business situation and this undoubtedly helped to promote the late selling that unsettled the market.

Reactionary development at this time would undoubtedly prove beneficial to the general market.

colder with scattered answers of show flurries.

Country offerings of wheat Tuesday was 597,539 bushels despite all the rains. There were 1,824 cars of wheat inspected yesterday, of which 764 graded contract. There was a little better tone to the export market with a moderate business overnight, but the local demand was not as good and spreads on most grades were lower. The demand was especially poor for two, three and four wheat, mills still being after number one.

C.N.R. DISPUTES WITH EMPLOYEES

Officials of Brotherhood of Railroad Employees Discuss Awards in Montreal

Montreal, Oct. 5.—With all major disputes between the Canadian Brotherhood of Railroad Employees and the Canadian National Railways

Brotherhood of Railroad Employees and the Canadian National Railways now satisfactorily settled, officials of the union at present are busy arranging distribution of various awards gained for employees concerned.

Chairmen of the three regions, into which the union is divided met here yesterday and in turn men delegates representing the employees affected by the new "clerical schedule." Each of the chairmen, R. Dykes, Winnipeg; of the Western Region; J. E. McGuire. Montreal; of the Central Region, and W. G. Smith, Montreal, of the Atlantic region, are arranging with the management of his respective division for the distribution of a pool which the Canadian National Railways awarded the employees in August. The award will be divided in such a manner as to remove existing inequalities in the monthly rate of wages of the various employees concerned.

monthly rate of wages of the various employees concerned. Some 18,000 employees are affected by this award, the "cierical schedule," including cierks, freight handlers, pas-senger station employees, stores depart-ment employees, motor car and power department, stationary engineers and firemen, classified and non-classified labor.

The new schedule makes working conditions uniform throughout the service and gives the employees a wage increase averaging ten per cent.

Regina, Oct. 5.—An all-day rain interfered with the informal visit of Lord and Lady Willingdon here yesterday. Instead of a golf game that had been arranged, the party in the afternoon attended the Dempsey-Tunney fight pictures. In the evening the Governor-General and Lady Willingdon visited Archbishop Mathieu who is critically ill in a hospital.

"That way," said Willie, pointing in a wrong direction.

Frye shook his pitch-fork at the boys as the party was leaving. "I ain't done with you young bums!" he snarled viciously. "I'll git ya yet!"

'Old Home Week" Would Be Fine Thing For Victoria, **Meeting Agrees**

Old Victoria residents from every part of the continent will return to this for at least a short period next Summer. If the plans for an "Old Home Week," sponsored by the Rotary Club, and backed by other service organizations, and societies, materialize. A meeting of representatives of local clubs and other bodies took place last night at the Chamber of Commerce. The plan would be to bring former residents back to the city simultaneously and to plan a reception and celebration for the occasion. If such a plain is carried into effect, Victoria will be the first city in British Columbia to undertake a venture of the kind. The "Old Home Week" is not new to other parts of Canada and the United States. Other cities, particularly in Eastern Canada, have made a striking success of similarly planned events. Percy C. Abell was named chairman at last night's meeting and Miss catherine McGraw appointed secretary, pro tem., to carry on the work of organization.

The central committee will meet again October 18 at 6.15 p.m.
Outlining the scheme, Mr. Abeli said that the "Old Home Week" was originated in London, Ontario, and that similar celebrations followed its success in many big Eastern cities. On each occasion these celebrations had met with distinct success. Loyal support of citizens was essential, he said. His idea was to have ex-soldiers' organizations, trades and labor representatives and every sort of public body represented on the central committee, He wished to make it clear, too, that during "Old Home Week" it was not secessary that every visitor for the occasion should be a native son or daughter. The whole situation was fully discussed and the delegates present gave their personal approval to the plans.

The following were present: James H. Fletcher, P. C. Abell, Alderman James Adam, J. M. Whitney and T. J. Goodlake, Rotary Glub; Miss. Mabel Cameron and Miss Catherin McGraw, Kumtuks Club; Miss Lottle Bowron and Miss Chrow, Native Daughters of British Columbia; Robert H. Flood Dangers Are to be Reduced

Washington, Oct. 5.—A solution of the Mississippi River flood problem that will prevent a recurrence of the disaster of last Spring was pledged by President Coolidge last night in an address at the annual meeting of the American Red Cross. Devoting practically his entire speech to the Mississippi flood, the President declared that in the solution "we shall advance our system of inland waterways."

He left the discussion at that point without making a specific outline of what should be done.

RE-ELECT WOOD

Annual Meeting Held at Lake

The annual meeting of the Saanich Conservative Association was held last night at Lake Hill Community Hall, with Col. A. W. Wood in the chair. PRESIDENT RE-ELECTED

Col. A. W. Wood was re-elected president unanimously, on the motion of Col. Scroggle of Gordon Head, seconded by H. Holmes, the nomination being greeted with rounds of applause. Col. Wood insisted, when accepting that every member must share the burden of advancing the interest of the party, and not rely on the officers to do all the work before the association. "Win the Provinces, and the Dominion will follow," he recalled as the advice of Sir John Macdonald.

Mrs. Osborne was elected first vice-president, W. O. Wallace was named second vice-president, and A. H. Spurr was re-elected secretary amid applause. Secretary Spurr was given a vote of thanks for his services during the last year.

Hon. T. G. Coventry congratulated the Saanich Conservative Association on the splendid turn-out and the fine array of officers named for the coming year. He regretted that sickness should have caused A. R. Sherwood to request relief from office, after being an ardent worker for many years. He also regretted the retirement of Mr. Wright from the executive.

"What the result of the Nelson election may be none of us can tell, possibly our opponents will try to buy another victory, but at any rate this is evident we must be prepared. There may be another session, there may not," commented Mr. Coventry.

R. H. Pooley pointed out that elections cannot be won if the Conservative electors are not upon the voters' list. He declared that in New Westminster, at the time of the last election, over 1,200 Conservatives were not entitled to the franchise. "In Nelson we are ready, in New Westminster we were not. I do not know how Saanich conditions may be, but send me in the names of a dozen Conservatives in each ward. I will guarantee that they will all be appointed commissioners to place people on the voters' list," he asserted.
